Professional Summary

Interim manager with 25+ years of experience in quality management, operational excellence and organizational transformation in industrial manufacturing environments. 14 years in senior line leadership roles at an international market leader; independent interim executive since 2023 — since then repeatedly engaged as an external mandate holder by his former employer. Experienced in running several parallel mandates with clearly defined capacity allocations, without compromising delivery quality.

Top Achievements

35% → 96% On-Time Delivery — Turnaround of the Hamburg plant (Condair Group) within a few months; defect rate -90%, targets exceeded by 150%.

30% Under Budget, 100% Retention — Post-acquisition integration of a competitor (Condair AG), as an external interim mandate holder for his former 14-year employer.

Quality organization stabilized — Supported a complete leadership transition across two countries (Oetiker Group, Switzerland & Germany), certification continuity secured.

Global multi-site certificate — Introduction of ISO 9001 as vertical integration across several subsidiaries and international plants (Condair Group).

Core Competencies

- ✦ Interim leadership: plant management, quality management, project management
- ✦ Turnaround and stabilization strategies
- ✦ Quality management (IATF 16949, ISO 9001, ISO 14001, ISO 45001)
- ✦ Post-acquisition integration and process harmonization
- ✦ Multi-mandate portfolio management (several parallel mandates with clearly steered capacity)
- ✦ Supplier quality and auditing
- ✦ Leadership, clear communication, assertiveness, hands-on mentality

Professional Experience

Managing Director — Rethink Interim GmbH 11.2023 – present

Self-employed as an interim manager for quality, process and transformation mandates in Switzerland and the DACH region. Since 2024, running up to three parallel mandates with clearly defined capacity allocations.

Head of QHSE Germany a.i., Endingen Plant — Oetiker Group 07.2025 – 07.2026 · 60–70%

Head of QHSE Switzerland a.i., Horgen Plant — Oetiker Group 07.2024 – 06.2025 · 60–80%

Stabilized the quality organization during a complete leadership transition across two sites; maintained operational continuity and IATF 16949 compliance; supported recruitment and onboarding of the new Head of Quality.

Interim Project Manager, Business Integration — Condair AG 06.2024 – 12.2025 · 20–40%, mostly Fridays

Engaged as an external interim manager by his former 14-year employer: integrated an acquired competitor into a SAP-based process and service organization (Swiss market leader, 80–90% market share). Project delivered 30% under budget, 100% employee retention, market leadership maintained.

Quality Engineer a.i. — alupak AG, Belp 03.2024 – 07.2024 · 60–80%

Bridged a vacancy in the quality department of a manufacturer of deep-drawn aluminium packaging (Nespresso® capsules): customer complaint handling, root-cause analysis, process improvements in the deep-drawing line. Unqualified recommendation from the COO and Head of Quality Management.

Supplier Auditor a.i. — SBB Cargo, Olten 02.2024 – 12.2024 · ~1 day / week

Bridged coverage until an internal supplier auditor was hired: planning and conducting on-site audits, assessment of supplier self-assessments.

ConSense IMS Partner — ConSense GmbH since 12.2023 · minor, on the side

Partnership around the ConSense IMS process-management software: development of the ConSense Forms solution, consulting, training, integration.

Head of Corporate Systems Management — Condair Group, Pfäffikon 07.2020 – 10.2023

Responsible for global quality management, Facility Management & Security Officer for the Pfäffikon site, cyber-security programme, risk management, special projects.

Head of Corporate Systems Mgmt / Project Lead Relocation HQ a.i. — Condair Group, Pfäffikon 12.2018 – 07.2020

Designed and implemented the new headquarters under an open-space concept; led the refurbishment, organization and execution of the relocation.

Plant Manager a.i. — Condair Group, Hamburg / Norderstedt Plant 04.2018 – 01.2019

Stabilized and turned around a plant in a critical operational situation — while continuing to hold Group QM responsibility in parallel. On-time delivery improved from 35% to 96%, lead times cut by 50%, defect rate reduced by 90%, order backlog reduced to 0.8%, overall targets exceeded by 150%.

Corporate System Management / Head Group IT a.i. — Condair Group, Pfäffikon 01.2016 – 12.2018

Built and implemented global quality management systems (ISO 9001) and led Group IT in parallel to the Group QM function.

Head of Corporate Systems Management — Condair Group, Pfäffikon 01.2014 – 12.2015

Head of Quality Management — Condair AG, Pfäffikon 03.2009 – 12.2013

Built and harmonized global quality and customer-complaint processes across more than 20 group entities in 23 countries; introduced ISO 9001 as a multi-site certificate; integrated several international plants and sales organizations.

Production Manager, Plastics Injection Moulding — Weidmann Plastics Technology AG, Rapperswil 07.2006 – 02.2009

Leadership responsibility for 30 employees, cost responsibility for production, production planning across 33 injection-moulding machines (automotive & sanitary customers), integration of a subsidiary into own production.

Department Head / Deputy Head of Production — Weidmann Plastics Technology AG 11.2003 – 06.2006

Department Head — Weidmann Plastics Technology AG 09.2001 – 10.2003

Deputy Department Head — Weidmann Plastics Technology AG 05.1998 – 08.2001

Plastics Technologist — H. Weidmann AG, Rapperswil 08.1997 – 04.1998
